

Did you ever want to know the nutritional information of a product **BEFORE** you purchased it?

### Make Informed Nutritional Decisions

The MIND™ is an easy to use touch screen that allows consumers to see that information prior to making a selection. Simply touch a thumbnail of the product or enter the product ID (Example: A1) and the nutritional information will appear.

#### Features of the MIND™

Easy to use touch screen

Flexible to use on practically any vending machine, as part of a bank of machines or in a kiosk

Provides complete nutritional and ingredient information

Product information is easily updated as products in the machine change

Makes a great addition to a company or school's Wellness Program

Provides opportunities to display public announcements, healthy lifestyle tips and product promotions
